

Apprope Releases Long-Awaited Photo Quiz Sequel

Since its introduction to the App Store, Photo Quiz reached the top 100 most downloaded in the US, top 20 in the UK and Canada, top 10 in Australia, and top 3 in Scandinavia. Now its developers have created a sequel, Photo Quiz 2. With hundreds of new questions, this game presents players with four photos, all with one common theme. When players guess the word correctly, they earn free hints to help with future challenges. The app, which is free to download, will be available June 7 for iOS and Android products. It has been translated into English, French, German, Dutch, Norwegian, Swedish and Danish.

Photo Quiz 2 is a sequel to the popular app Photo Quiz, which reached the top 100 most downloaded in the US, top 20 in the UK and Canada, top 10 in Australia, and top 3 in Scandinavia. This time, it's offering plenty of different challenges – some that keep players guessing and others that get them laughing. Players will be presented with four pictures that have one thing in common. Simply by tapping the letters in the word bank, players can spell out each guess.

This sequel comes with hundreds of new challenges, which get progressively harder the more someone plays. Gameplay can last for hours.

This time, the rules have changed a little. The game offers three different “hint” opportunities. Tapping on the magnifying glass icon reveals letters in the answer. Tapping on the bomb icon removes some of the word bank letters that aren't being used. Finally, the key icon reveals the word completely, for the extreme cases where players get stumped. Every time an answer is correct, players earn more hint opportunities. These helpful tools can also be purchased in the game.

Photo Quiz has been translated into seven different languages: English, French, German, Dutch, Norwegian, Swedish and Danish. It will be available in the app store for iOS and Android products June 7, 2013. It is free to download.
