Boredom sucks. Our apps don't.

Apprope is an independent app studio. Our mission is clear: kill boredom. Our weapon? Your phone.

In February 2012 there were more than +700,000 apps in iTunes App Store. The questions are: Do people really need more apps? Does the World need another app developer? We certainly think the answer is 'Yes'. There are party apps, there are humour apps, there are game apps. Some are fun, some are clever, and some are slick. Many are nothing. But sadly enough, extremely few of the apps are fun AND clever AND slick.

That's our goal. We don't want to change the world. We leave all that stuff for Bono. Instead, our goal is to create fun, clever and slick apps that can kill those unnecessary 15 minutes of boredom. It doesn't matter if you are waiting for the bus or are at a dull party, you always have your phone. And now you can use it to kill that boredom. It's totes apprope.

Our first app was TRUTH or DARE?, which was released in April 2012. Our goal is to release another two party game apps in the following months.

Apprope is an independent app studio founded in 2012 by two friends in Stockholm, Sweden. Our vision: kill boredom. How? By creating fun, clever and slick apps.
