

Latest Apprope Quiz Game Released, Zoom Quiz

Have you ever looked at an object very close up and seen that its details are different from the object itself? This is the trick behind Apprope's latest quiz game, Zoom Quiz. Players are given a zoomed-in view of a photo. Using their knowledge of details, they must guess what the object is as a whole. With hundreds of different challenges, Zoom Quiz is available for free for iOS and Android devices.

To be released this May 30th, Zoom Quiz is the latest photo quiz game from Apprope. With this game, players are presented with an ultra-zoomed view of an image. Using the clues from each close-up detail, players must guess what the object is as a whole. This is a game for people who love mind-benders, who are observant of details, and who think outside the box.

Zoom Quiz is easy to use. To make each guess, players simply tap on the letters in the word bank to spell out an answer. They have several hint tools at their disposal. They can zoom further out to get a fuller view of the object. They can also use a bomb icon to remove letters from the word bank, a magnifying glass to reveal letters in the answer, and a key to solve the question automatically. Hint opportunities are awarded upon level completion, and they can also be purchased in the app store.

Available this May 30th, Zoom Quiz can be downloaded and tried for free. It's compatible with iOS and Android devices. The game has been translated into eight different languages: English, French, Italian, German, Dutch, Norwegian, Swedish and Danish. With hundreds of different photos, Zoom Quiz offers a wide range of challenges that can keep players occupied for hours.
